- Will focus on projects that result in construction
 - The FAST Act also allows for projects that fund development phase activities
- \$326 million of the \$500 million intermodal cap remains for freight rail, water (including ports), or other freight intermodal projects

INFRA Grants: Key Questions

- Is submitting your old FASTLANE application with an appendix a good idea?
- Do applicants need an entirely new BCA?
- Should applications address every merit criteria? Are the criteria weighted?
- For leveraging – does USDOT prefer private funding over state/local?
- What about FASTLANE round 2 small projects awaiting awards– should they still apply for INFRA?
- Who's making these decisions and when will we see them?
