Where Does My Stuff Come From? Activity Booklet

Designed for ages 8+

To Print: Print double sided in landscape mode; fold each piece of paper in half, horizontally; then nest pages inside each other. Enjoy!

About This Booklet

How does food arrive at the supermarket? How do clothes and shoes arrive at shopping malls? How do packages arrive at my door? Nearly everything we touch was delivered by our multimodal freight network. A combination of ships, trucks, trains and airplanes work together to supply people around the world with the items we've come to rely upon.

I need stuff, you need stuff, we all need stuff! To deliver our stuff, shippers need safe, reliable and efficient infrastructure: roads, bridges, ports, waterways, railways, and airports. **This book was designed to highlight the freight transportation network. We hope you enjoy these puzzles and challenges – and we hope you'll learn something along the way!**

Bonus Challenge — create your own freight scene! See back cover for details.

About the Coalition for America's Gateways & Trade Corridors

The Coalition for America's Gateways and Trade Corridors (CAGTC) was established in 2001 to bring national attention to the need to significantly expand U.S. freight transportation capabilities and to work toward solutions for this growing national challenge. CAGTC is a 501(c)(6) non-profit trade association, based in Washington, DC.
